Res. Amarilis III, Autopista San Isidro, Santo Domingo Este, DR

Professional Profile

I am a Front-End developer in training with solid knowledge in key technologies such as HTML, CSS, JavaScript, and C#, complemented by a foundation in SQL databases. I specialize in creating clean, functional interfaces adaptable to different devices, prioritizing user experience. I have problem-solving skills, the ability to work in teams, and adaptability to dynamic environments. I am continuously learning and updating my knowledge, motivated to learn new technologies and contribute innovative solutions in real-world projects. My goal is to join a development team where I can add value from day one, grow professionally, and strengthen my technical skills in web development.
